

Sutton Park Community Primary School

Topic Web Year 1

Autumn 1

PE will be on Monday and Tuesday. Make sure all items of clothes are clearly named. We have outdoor learning on Wednesday afternoon. Please join us at 2.45pm on Thursday for Family Reading.

We have chosen this topic as it focuses on our senses. By using all their senses the children will be able to create a greater bank of exciting vocabulary to support them with their character and setting descriptions.

Maths

In Maths we will count to and across 100, forward and backward, beginning with 0 or 1, or from any given number. We will practise counting in 2s, 5s and 10s. We will also be looking at measures to compare, describe & solve practical problems for lengths and use words like; long, short, longer, shorter, double and half. Then we will order up to five objects by length. As a class we will use objects to help us to add and subtract and use + - and = signs to record our calculations.

Science

In Science we will name, draw and label basic body parts and look at the skeleton. We will also learn about our 5 senses through activities like listening walks, tasting sessions and feely bags. The class will be thinking about healthy living and hygiene and will investigate the spread of germs.

Art/ Design Technology

We will prepare a healthy dish and learn about where the food comes from. We will also use split pins to make a moving skeleton. In Art we will be using a range of art materials to draw our self portraits.

English

The class will be reading 'Knock Knock Open the Door' by Michaela Morgan and we will focus on character descriptions. The class will be practising saying sentences out loud before writing them and using capital letters and full stops correctly. We will also be using adjectives to make our writing more interesting. After this we will move on to reading 'Peace at Last' by Jill Murphy and we will be writing setting descriptions using each of our senses. Year One will also have daily Read Write Inc sessions to consolidate our knowledge of sounds and learn new sounds.

Our Busy Body

Music

The class we will be learning autumn songs to sing during our harvest assembly. We will also be learning new songs for example; 'My bones my bones'. We will also be using instruments to make sounds we hear around the house (linked to the story 'Peace at Last' by Jill Murphy).

Computing

We will be exploring ways a computer program presents data and we will be gathering our own information adding it to a pictogram showing the 'Favourite fruit in Year 1'.

PE

In gymnastics we will be exploring different ways of travelling (jumping, rolling and turning) along the floor and on apparatus. In outdoor PE we will be playing games to help us to control a ball with our feet and we will talk about the importance of exercise to keep our bodies healthy.

RE

In RE we will be learning about who a Christian is and what they believe.

PSHE/ Thrive

In Thrive we will be learning how to manage and resolve disagreements. The class will also be learning to become assertive. Throughout the topic we will learn how to keep our body healthy and we will also be learning how to keep safe near the road.
