

# Sutton Park Community Primary School

## Topic Web Year 2

We have chosen this topic to build on our prior learning and further our knowledge of word classes, descriptive language and storytelling techniques.

Outdoor PE will be on Friday mornings. Indoor PE will be on Monday afternoons. **Family reading will be on Thursdays, 2.45pm.**

# Sea Adventures

### English

To develop our writing skills, we will be reading a range of sea-themed fiction and non-fiction texts; we will be using these to help us write descriptive stories, letters and diaries. We will be focusing on the features needed to be a Year two writer and learning how to apply them in different contexts.

### Guided reading

To develop as readers, we will be continuing to widen our reading comprehension skills, answering questions about a text we have read. We will recognise simple recurring literary language in stories and poetry. Furthermore, we will be continuing to develop our fluency of reading, working up to reading 90 words a minute!

### Outdoor Learning

We will be developing our map reading skills, as well as developing survival skills!

### Music and Art

To improve our music skills, we will be composing music, which we will be using later in the term as part of our dance scheme of work. To improve our art skills, we will be working in the style of Van Gogh and using the illustrations from our class texts to create interesting pieces of art work.

### Science

To develop as scientists, we will be identifying and comparing the suitability of a variety of everyday materials for particular uses; discovering changes to solid objects by squashing, bending, twisting and stretching. We will test materials' suitability to make a boat for Tom Bawcock, the fisherman from our class text.

### PE

In indoor PE, we will be exploring moving and balancing using various equipment and learning how to use and pack away equipment safely. During outdoor PE, we will be developing our throwing, catching and aiming skills.

### PSHE and Thrive

During this half term, we will be looking at expressing difficulties and worries. We will also be discussing our hopes and dreams and setting our own goals.

### Geography/History

To develop our geography skills, we will be using basic geographical vocabulary to describe human and physical features. We will also be exploring maps and identifying features on aerial photos and plans. To develop as historians, we will be finding out about famous explorers.

### Maths

To improve as Mathematicians, we will be counting in steps of 2, 3 and 5 from 0, and in tens from any number, forward and backward. We will read and write numbers to at least 100 in numerals and in words. In addition to this, we will be comparing and ordering lengths and mass. Addition and subtraction will also be a focus this half term, where children will recall and use addition and subtraction facts to 20 fluently and derive and use related facts up to 100 as well as adding and subtracting numbers mentally. We will also be exploring 2D and 3D shapes. In addition to this, arithmetic sessions will be used to explore and secure knowledge and understanding of the 4 number operations. Mental Maths sessions will be used to practise and consolidate facts for the 2, 5 and 10 x tables.
