### **Welcome Comment**

Good morning Year 5!  
Well done! Your first week of school at home is almost done! I hope that you have been putting in the effort that you do at school and remember that the pieces of work you are particularly proud of can be sent to me at the Year 5 email address.  
Remember that reading should be being done and recorded daily in your diaries! It's REALLY important that you keep this up!

### **English Task**

Today I would like you log on to [Education City](#) and go to 'My Classwork'. There you will find an activity all about how to identify features of different text types. There is also a spelling activity all about -ible and -able words.  
If you do not have internet access, then please complete an English activity from your pack and practise the first ten spellings from your Year 5/6 words.  
Remember, all you need to do is try your best!

### **Maths Task**

Today I would like you to revisit [Mixed Numbers and Improper Fractions](#). The link takes you to a PowerPoint on Twinkl. This may be something that you remember doing -remember you need to use your times tables knowledge for this!  
Then you should have a go at [this activity](#). You can complete this in your purple books or on the maths paper you were given if you prefer. Again, just have a go and use your tables knowledge to help you. Any questions, please just let me know!

### **Foundation Subject Task**

**Thrive:** For today's task, I am asking you to spread a little colour and joy! You may have seen on the [news](#) that rainbow pictures are starting to pop up all over the country. The idea is that people are creating these rainbows and putting them up in their windows for other people to see and enjoy. This is something that is starting to happen all over the world, so I thought that we could try and do our part here in Kidderminster!  
Your task is to create a picture of a rainbow with whatever resources you have available – ask your grown up for some help here! You could do this as a collage with magazines or paper or colour with crayons or felts. You could then put a positive message with your rainbow as well to help spread some joy in your street!

### **Any Further Guidance**

Firstly, well done to everyone for working so hard this week. As I said to you last week Year 5, this is new for us all and it might take us a minute it get it right, but if we all try our best, we will get there!  
Please remember that you can email the Year 5 address if you have any queries about the work or to show off the fabulous things you have been getting up to!  
Stay safe and be kind! Miss McGowan ☺
