Welcome Comment

Good morning Year 3!

I hope you have had a lovely Easter. I loved reading your responses to our daily question last term, so here is today's:

'Would you rather do schoolwork as a group or by yourself?'

I look forward to hearing your responses via the Year 3 email.

English Task

Please log on and look at our new picture <http://www.pobble365.com/mr-wolf>

Can you answer the following questions?

Where is the person trying to escape Mr. Wolf?

Who is he/she and why are they being chased?

What kind of character do you think Mr. Wolf is?

How do you think Mr. Wolf found the person?

Why is he dressed in a suit?

What is it like inside the tree? How is the person feeling?

If you were inside the tree, how would you escape?

Maths Task

For today's task, I would like you to begin to create a maths game that helps younger children to learn their number bonds. You can decide whether to do to 10, 20 or 100. Your game can take any style you like. You may need to do some research on the Internet to get some ideas! Today I would like you to plan your game. Think about what resources you will need. Will you need to create question cards? How will it be played? Do you need counters and dice? Will you need a points system? Start planning and enjoy!

Foundation Subject Task

An alien has landed, they are wondering how things move and why we don't just keep moving all the time. They are also not sure how magnets work, why sometimes they attract and other times they don't! In class we learnt about forces and magnets. Can you create a poster to explain these things to my alien friend?

Any Further Guidance

I hope that you enjoy completing today's tasks. We will use the work that we have done today and build upon it. I can't wait to see your creations. If you have created something fabulous on forces and magnets, please share it with me.

Enjoy! Mrs Cornforth
