Welcome Comment

Good morning Year 2!

I hope you are all well and ready for today's challenges. Some of you have come up with some imaginative games, so I look forward to seeing the completed designs!

English Task

Firstly, I would like you to read for 10 minutes. You can use one of your school books, your own book or practise reading the first 100 or 200 high frequency words. (**The link to these can be found under the home learning on the school's website.**)

Today's English focus will be to look at the spellings you have chosen to learn this week. Record a sentence for each one. Try to make your sentences exciting by including adjectives (describing words) and conjunctions.

Conjunctions:

Co-ordinating – and, but, or, so

Subordinating – when, that, because, if

Maths Task

To begin, I would like you to log in to Times Tables Rockstar's <https://trockstars.com/> and complete work on your times tables for 10 minutes.

Capacity

The standard units of measurement for capacity are litres (l) and millilitres (ml).

Look in your kitchen to find different containers with these measurements on. Can you order them from the smallest to the largest amount? Using the symbols, > (greater than), < (less than) and = (equal to/the same as), compare the containers. Record your findings.

Foundation Subject Task

Complete the task you started yesterday: Using all of your knowledge of the United Kingdom, create a game that will test your family's knowledge and understanding of the UK. You could base it on a familiar game, like Snakes and Ladders: When someone lands on a ladder, they could answer a question before they are allowed up it; for example, Name the 4 countries of the United Kingdom. What is the capital of England? What is the English flag called?

Any Further Guidance

I hope that you enjoy completing today's tasks. Remember to ask a grown up to test you on the ten spellings you have been practising this week. Good luck!

Remember that it is also important to be active! You might want to use Joe Wick's daily PE routines, which can be found on YouTube, or try an activity from GoNoodle:

<https://www.gonoodle.com/good-energy-at-home-kids-games-and-videos/>

Have fun and don't forget to email me your work!
