

### **Welcome Comment**

Good Morning Year 4! It's Friday already! I hope you've all had a brilliant week. Choose something that you feel proud of this week and complete your 'I am proud of' section in your home school diary. I'm sure there are lots to choose from.

Today's active task: As it's Friday, and I know how much you LOVE this [song](#), have a dance Year 4 😊

### **English Task**

Today, use this [picture](#) as your inspiration. Have a think about these questions:

Where is this? What is the woman doing? Why?

Does the large person know that she's there?

Do you think the woman is strong enough to stop the large person's foot?

What else might she do to prevent herself from getting squashed?

Why was she here in the first place? Is this a safe place for her to be? Why doesn't she just move out of the way?

Have a go at creating a piece of writing in 100 words to go alongside the picture.

### **Maths Task**

Today, have a go at improving your Rockstar speed even more. Head over to Times Table Rockstars and choose any area to have a practise. You should spend at least 15 minutes here. Once happy, move over to the 'Studio' area. You need to play 10 games in order to improve your rock speed. Keep trying and if you need more practise, then go back and do that before returning to show off your skills!

### **Foundation Subject Task**

As we are seeing lots of rainbows everywhere which are brightening up windows around the country, I am setting you a challenge to come up with your own symbol to represent love, hope, happiness and health. Create a poster of this which can go up alongside the rainbows you created before Easter. Use the #stayhomestaysafe to accompany your designs. You might decide to create a mascot or character instead of a symbol and name them. If you would like to send them in to me, I can post them on the school's Twitter account for people to see.

### **Any Further Guidance**

I hope you have had a good week and are settling back into the routine of working at home. It's all still strange and we are still getting used to it, but you are all doing a FABULOUS job. Remember, it's not just you who is adjusting – make sure you are being kind to everyone in your house. We're all in this together. Keep smiling, stay safe and be wonderful. Love, Miss D 😊
