### Welcome Comment

Good morning Year 5! I hope that you had a good weekend and are ready to get going with your learning again today!

Last week you had your packs delivered (and a wave from Miss Crawley or Mrs Weatherby!) which is fantastic as it means we now have some extra resources that we can use to help us at home. The book I have chosen is one of my all-time favourites and I hope you will love it too. It is also a Disney movie that you may or may not have seen, and if you are lucky enough to have the Disney + channel (I'm not! ☺), it is currently available to watch on there! I am very excited for us to read this story together! ☺

**English Task** For today's task, I would like for you to read chapters 1 and 2 of Holes (up to page 5). I would then like you to demonstrate your VIPERS skills by using the information in chapter 1 to draw and colour Camp Green Lake. Make sure you read the description carefully and use that information to create your image.

You then need to focus on chapter 2. At the end of the chapter, Stanley is given a choice. What choice do you think Stanley will make (from looking at the information in the chapter) and why? Make sure you record your thoughts clearly in your new yellow book, using evidence from the text to support your answer.

### Maths Task

To start, have a go at this [Football game](#) all about adding decimals. This week, we will continue to build on our knowledge of decimals, addition and subtraction. Head to [White Rose](#) and have a go at Summer Week 2, Lesson 1 (Adding decimals with the same number of decimal places.) **Remember**, it's really important to line up your decimal points and for questions 4 – 7 show your working out to help explain your thinking.

**Foundation Subject Task** At the moment, we are all spending a lot of time online, whether it be for schoolwork, entertainment or communication. So, I thought that it would be the perfect time to remind ourselves of how to be safe online and behave in the right way when we're using technology. **Being safe and kind is key!** I would like you to play the [Band Runner](#) game first of all. This is for children aged 8 – 10 and asks questions about how to feel confident to make the right decisions when going online, how to ask for help and support when needed and to help distinguish between safe and unsafe behaviours when online. I would then like for you to create your own help sheet/poster for children your age who might not be aware of how to be safe and sensible online. Make it bright, clear and catchy! What would your top tips be to stay safe when using technology?

**GROWN UPS – This [link](#) gives you further information about the game and guidance of discussions you can have with your child after playing the game or to just discuss e-safety if you wish to.**

**Any Further Guidance** Just a note to remind you year 5 that you are doing really well, and I am super proud of you all! Please remember that all I ask is that whatever task you do, you give it your best shot. If there is something that you are finding tricky, just have a go, you can always email me to ask for help if you can. You don't have to get everything right! Take breaks when you need them and resting/doing things other than schoolwork is really important! Get outside, bake a cake, dance, whatever makes you happy – do that! I would say the same to you if we were in the classroom – don't get stressed about schoolwork – all you can do is your best! You are amazing! Take care, Miss McGowan ☺
