### Welcome Comment

Good morning Language Class. Here are your activities for today. Please do what you can and don't worry too much if tasks don't get completed. You are all doing a fantastic job. Don't forget to keep in touch and email me photos or videos of your activities. I love to see them. If you have any problems or questions please email me on the MLU address and I will respond to you as soon as I can.

### English Task

Remember to practise your phonics daily with Read Write Inc sessions on You Tube. Please try reading for 10-20 minutes each day. You might read a comic, recipe, board game instructions, joke book, facts or a story. Please keep practising your spellings too!

How did you get on with yesterday's code breaking task using morse code? Today I want you to use the chart on page 2 again (from yesterday's worksheets) to create your own secret message on page 5. Can someone in your family decode it? Then can you work out the secret message on pages 6? It's your Maths mental starter today!! If you can't print out the worksheets have a go at making up your own code for the letters of the alphabet and creating your own messages. You can do this as an extra challenge too!

**Maths Task** Everyone start by trying the Mental Maths starter activity from your code breaking worksheet on page 6.

Today **Y1**'s have a look at the video <https://whiterosemaths.com/homelearning/year-1/> (Summer Term, Week 3) lesson 2 – Fact families – linking addition and subtraction (1). You can also look at the activity after completing the video.

**Y2**'s look at the video <https://whiterosemaths.com/homelearning/year-2/> (Summer Term, Week 3) lesson 2 – Compare Number sentences. You can also look at the activity after completing the video. If it is too tricky try the Year 1 activity.

**YR**'s can you use your dice today to create a subtraction (take away) sentence. Roll the dice twice then write your number sentence. Remember the largest number needs to go first e.g. 5-3=. Now calculate the answer! You may use counters, fingers or do it in your head! Repeat so you have completed 10 number sentences. If you want a challenge get a grown up to give you a larger number (2 digits) as your first number (use your number line).

### Foundation Subject Task

How did you get on with this week's Family Art Challenge? I have seen some amazing art work that you have created. Don't forget to send me a photo when you have completed it. Today I have attached a construction activity – constructing a Spitfire aeroplane. These aeroplanes were used in World War Two. Also, Captain Tom had a flyover on his 100th birthday by a Spitfire aeroplane. Can you spot which one is the Spitfire? Watch it on <https://www.bbc.co.uk/programmes/p08bwby5>

### Any Further Guidance

Don't forget to stay active and try and do some exercise every day. Please check out the school website, click on Home Learning→Whole school resources and you will find a section called 'Staying active, fresh air and sunlight'. Here you will find weekly sport activities to try out at home. Keep practicing your speech and language therapy activities too. Have fun!

Mrs Harris.
