

Welcome Comment

Good morning Year 5! I hope that you have had a good start to the week and that you are managing to stay active and enjoy this lovely sunshine. Today for our foundation task, you need some natural materials again – so it's a perfect excuse to get outside for a walk! I hope you are all well and taking care of yourselves. Have a lovely day, Miss McGowan ☺

English Task Today, I would like you to start by reading chapter 15. After reading, have a go at answering the questions below. The questions will relate to the chapters read so far this week (13, 14 and 15). Remember to use evidence from the text to support your answers and record your answers in full (well punctuated) sentences!

- 1.) Find an example of onomatopoeia on Page 67.
- 2.) Why did Stanley lose count of the number of holes he had dug?
- 3.) Why does the warden get everyone to start digging around X-Ray's hole? Why might this be fruitless?
- 4.) What do you think is the significance of the gold tube?
- 5.) Summarise your first impressions of the warden in a single sentence.
- 6.) Why was it unusual to see a cloud in the sky?
- 7.) What does glisten mean?
- 8.) What does engraved mean?

Maths Task Following on from our mental maths yesterday, please have a go at another challenge today! The questions (and answers) will again be attached along with eh email and will be available on the school website too. Don't forget to keep up your hard work on Times Tables Rockstars and Prodigy too. Remember, some of the questions are more challenging than others, just have a go and do what you can! ☺

Foundation Subject Task – Art The art you have been doing over the past few weeks has been fantastic! Your creative, individual ideas are incredible! Let's stay with our theme of natural materials. You could collect them if you are out on a walk or collect them from the garden. This week, I would like you to create a pattern or a representation of a living thing using only natural materials. This could be sticks, stones, pinecones, petals or leaves. Use your imagination and have fun. Here are a few examples to help:

Any Further Guidance

Remember to let me know how you're getting on. I hope you had fun with the PE family challenge yesterday – you could keep the challenge going all week if you wanted! Have fun, Miss McGowan ☺
