Welcome Comment

Good morning Year 3. Hope you are having a super week so far.

I love receiving your emails keep them coming!

Persevere with those battle stories, you are doing a great job!

Keep up the good work Year 3 😊

English Task

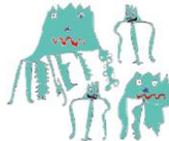

Today we are going to finish writing up our battle scene. Describe what is happening, try and make it as exciting as possible. Do Tom and Isis win? If so how? How do the crowd respond? Does anyone help them? Do they go free? Remember to include all the Year 3 taf's. (Fronted adverbials, range of prepositions, different conjunctions etc) Good luck Year 3 I look forward to reading them 😊

Maths Task

On the planet Vuv there are two sorts of creatures. The Zios have 3 legs and the Zepts have 7 legs.

The great planetary explorer Nico, who first discovered the planet, saw a crowd of Zios and Zepts. He managed to see that there was more than one of each kind of creature before they saw him. Suddenly they all rolled over onto their backs and put their legs in the air.

He counted 52 legs. How many Zios and how many Zepts were there?
Do you think there are any different answers?

**Foundation Subject Task**

DT: Fruit structures. Imagine there is a national shortage of building materials and you, Britain's top engineer, are now forced to build with a very strange material – fruit!

1.) Which fruit do you think would make the best building material? Why? 2.) Can you design interesting fruit structures of your own? Draw and label your diagrams. Next, think carefully about the challenges and strengths of your designs. 3.) If you can, you might like to have a try at building your very own edible fruit structures. Have a look at the example below for inspiration, or go wild with your own ideas - just make sure you have your grown-ups permission before you raid the fruit bowl!

Any Further Guidance

Remember to keep emailing me your pics of the family challenge.

Keep dancing 😊 Mrs Cornforth.
