

Sutton Park Family Music Challenge

Last week Mrs Fassnidge set you a family art challenge, this week it's music! Today I am challenging you and your family to get creative and play around with sound to try and create a family orchestra!

Your orchestra could be made up of things from the kitchen such as pots and pan, a cheese grater or even make an interesting sound by crumpling up a bag of crisps (or by chomping on a crisp at the right time!). You could use the Hoover, sweep the floor or simply tap pencils on a table, anything that is around your house that you think you could use to create an exciting sound. The idea is you get creative and compose your piece of music with your family.

You should think about how you perform your piece of music and what it will be called. If you can record your performance, then this would be great! If you can't then make sure you tell me (or your class teacher) all about the instruments you have chosen and the title of your piece of music. If you're struggling for ideas to get started, maybe you could base your rhythm on one of your favourite songs. Or maybe you could try and do an updated version of the Cups song, but with more 'instruments'?

If you don't fancy that, then have a look here for some inspiration and guidance on how to get your orchestra started!

Make sure that you ask your grown-ups for permission before you use things and make sure that you only use objects that are suitable and safe!

Good luck and have fun, I can't wait to hear your musical masterpieces! ☺
