**Welcome Comment**

Good morning Language Class. Here are your activities for today. Don't forget to keep in touch and email me photos or videos of your activities. I love to see them. If you have any problems or questions please email me on the MLU address and I will respond to you as soon as I can.

**English Task** Please practise your phonics daily with Read Write Inc reading and spelling sessions on You Tube. You should be practising your set 3 sounds. Please try reading for 10-20 minutes each day. Have you learnt the next 5 spellings on your list?

We are continuing to focus on handwriting and practising letter formation of both lower and upper case letters. Today I would like you to practise the 'r' based' letters i.e. 'r, m, n, h, b, p, k' using the worksheets attached Monday. Remember to start each letter at the top and don't take your pencil off until you have completed that letter. Try both the upper case (capital letter) and the lower case letter for these sounds. Pupils needing support with dyslexia, please use the specific handwriting sheets attached Monday (you start forming letters at a different place as cursive handwriting is recommended). Do you know both the name and the sound these letters make? Say the letter name and sound as you write it.) Now try writing a sentence(s) (maybe using your new spelling words) focus on forming the 'c', 'l' and 'r' based letters correctly.

**Maths Task** Everyone start by playing <https://www.topmarks.co.uk/maths-games/daily10> a mental maths activity again. YR/Y1 start at level 1 try ordering today. Y2's/4's start at level 2 Ordering and then Partition and increase difficulty for more of a challenge. Can you race against the clock?

Today we are thinking about standard units of measurement. Please watch <https://www.bbc.co.uk/bitesize/clips/z48q6sq> . We are thinking about measuring capacity using litres and millilitres. Can you find a measuring jug in your house? Can you read the measuring scale on it? Can you measure out different amounts of water using the measuring scale? Have a look at how much capacity there is in different bottles and cans e.g. soup, fizzy pop, milk etc. Then complete the attached worksheet 'Capacity reading scales'.

**Foundation Subject Task**

Today I would like you to be scientists again and learn 'How to make a Rainbow'. Watch <https://www.youtube.com/watch?v=Cm9ZkYTnCNE> . Try the experiment in the video clip and watch out for rainbows when it has been sunny and raining! Can you take a photo of a rainbow if you see one?!

**Any Further Guidance**

Try and keep active every day! Keep on practising your speech games from Miss Chatterton and let me know how you are getting on. Well Done!

Mrs Harris.
