

Welcome Comment

Good morning!

It's Wednesday already! I hope you've got some energy this morning as you are going to need it for Go Noodle this morning! Enjoy! ☺

English Task

Chapter 23 is a flashback chapter all about the history of Green Lake and we find out about Katherine Barlow. At the end of the chapter, we see Miss Barlow refusing a boat trip from Charles Walker. This is interesting as Walker explains that nobody ever says no to him. I want you to think about why Katherine says no and how her refusal would have made Charles feel.

I would then like you to write the next chapter of the flashback. Would Charles give up easily? Would there be any consequences for Katherine saying no to the boat trip?

Maths Task

Reactions

Test a partner's reaction time by recording how fast they can grasp a ruler (or similar object) when you drop it between their fingers. Repeat 5 times and record results.

Make a conjecture:

e.g. The older you are, the slower your reactions; You will get better over time; Girls will be quicker than boys; If you are left handed, your reactions will be quicker with your left hand; Your average time will be quicker than your first attempt; etc

Test your conjecture with your family members and record results. Was your conjecture correct? What have you found out?

I would then like you to think about how you could display the data you have collected. Could you create a graph? Could you work out average times? Could you produce an written conclusion to support your conjecture?

Any Further Guidance

Thank you if you have already sent an email this week to let us know how you're getting on. If you haven't done this yet, try and send us one just to say hi, we do love to hear from you!

I hope that you are all getting on ok and having a good week.

Take care,
Miss McGowan ☺
