

Welcome Comment

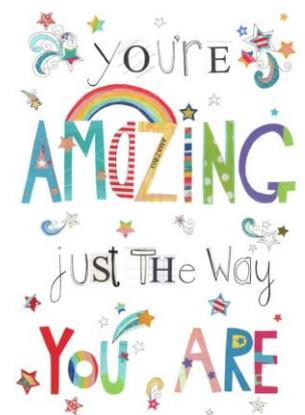

Good Morning Year 4! Friday again! I hope you have all had a great week and enjoyed the activities. Like we usually do, I would like you to think about something you are proud of this week. Make a note and celebrate yourself because you are awesome!

Today's active task: As it's Friday, we better have a [dance](#)!

English Task

Today, I would like you to imagine that you are a character from our class text. What would your name be? What would your job be? What colour is your hair? All of these details should be included to create a picture of yourself as a character. You already designed your animal companion, so this could accompany you in your picture.

Thought for the day...

Maths Task

Another day, another Mental Maths test Year 4! Well done to those of you who have really been trying. Hopefully, you are finding them easier now. If there are still some areas you are finding tricky, don't panic! We will get there 😊

Foundation Subject Task

Building on the work you did a few weeks ago on digestion, I would now like you to find out all about teeth! Head over [here](#) and watch the videos. Once you have got familiar with the different teeth names and their jobs, create a poster, fact file, leaflet or perhaps model of the human teeth and what they do. You could also include information about how to keep them clean and healthy and why this is so important.

Any Further Guidance

Well done for getting back into the swing of things so well after a week's break. Now it's time for the weekend and time to regroup, chill and reenergise. Let's hope the beautiful sunshine continues. Enjoy and look after each other. Miss D 😊
