Welcome Comment

Welcome to a brand-new week Year Six. For some of you, this may be your first day back at school for quite a while, but whether you are at home or at school, please be assured that you are getting exactly the same tasks to complete.

Those of you in school will have noticed that I am not in. I will continue to set you tasks remotely, and will also be focusing on working with your secondary schools to ensure they have as much information about you as possible. I am, of course, still contactable on the year six email, whether you are in school or not. Today's challenges are below!

English/Transition Task

I would like you to complete some independent reading of a book of your choice. Remember to head to <https://stories.audible.com/start-listen> or 'go epic' if you fancy something a bit different.

Below is today's countdown conundrum. How quickly can you work out the nine-letter word. Don't forget to make as many words as you can as well.

A S C N O O I C S

Starting secondary school is a time where organisation and independence is really important. A good routine is essential for this. I would like you to plan your morning routine (from waking up to arriving at your new school) and then plan your evening routine too (from leaving secondary school to going to bed). Think carefully about how long each activity will take and what times of the day you will be able to complete hobbies such as reading or after school clubs.

Maths Task

I would like you to spend some time on Times Tables Rockstar's <https://trockstars.com/> and complete work on your times tables for 15 minutes.

Below are two mathematical problems for you to try and solve. Good Luck!

Rosie gives Mo 25 pence.

How much more money does Rosie have than Mo now?

Charlie has a tin of paint.

The tin is half full and weighs 5.8 kg. Charlie paints a wall in his house.

The tin is now a quarter full and weighs 3.1 kg.

How much does the empty tin weigh?

Foundation Task

Miss D has set a family 'Reading Challenge' for you today. Your challenge is to create a reading den. Reading dens are special spaces to curl up with a book. They don't need to be permanent – in fact temporary dens, built from household objects are best! There are loads of different ways to make one. You could use a rug, sheet or even a pile of cushions to create a cubbyhole in an unexpected place. You could turn a huge cardboard box into a reading castle, or drape a rug or sheet over a washing line to create a reading tent. Small children can even snuggle up under an umbrella on a rug. To turn a den into a *reading* den, just add cushions, blankets... and books! You might create some reading inspired art work to add a finishing touch. When it is finished, sit down to read one or two books together as a reward for your hard work. Don't forget to send over your photos and we will choose some of the best ones to put on the school website. Happy den building!

Any Further Guidance

I hope you enjoy today's learning. Don't forget to check out the school website for this week's Virtual School Games Challenge 'Hit the mark'. Get involved, and I will see you tomorrow for a logo challenge. Mr Salisbury
