Hi Everyone,
Here are you home learning tasks for today.

Have fun!

English Task

Today we would like you to revise what you know about **verbs**.

Watch - What is a verb? This tells us that verbs are actions, states or an occurrence. Think of a verb as a 'doing word'.
Can you copy out these sentences and then underline or highlight the verbs:

I walk to school every day.
We love running on the playground.
My Mum is baking a cake.
We are going to paint a picture.

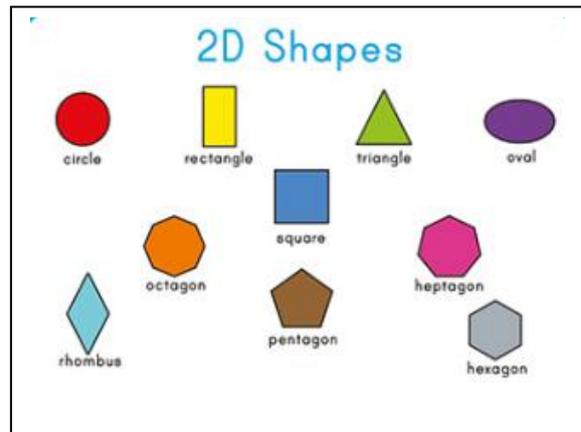

Challenge – Could you write your own sentence including a verb?

Maths Task

Today we would like you to think about 2D shapes.

Can you name each of these shapes and describe them?

Could you have a go at sorting these shapes into a group with curved sides and those with straight sides?

Foundation Subject Task

Today's activity is a scientific experiment. We would like you to explore floating and sinking.

1. Can you collect 5 small objects from your classroom or house.
2. Now can you predict which of these objects that you think will float and which will sink? Can you sort them into two piles; one to float and the other to sink?
3. Now for test; place each object in a bowl of a water one at a time and watch to see if it floats on the top of the water or sinks to the bottom of the bowl.
4. Were your predictions correct? Did any of your chosen objects surprise you?

Any Further Guidance

We hope you enjoy your tasks today. Have you tried Miss D's reading challenge yet? Could you build a reading den in your classroom or somewhere at home? Enjoy!!!

Mrs Oakley and Mrs Digger 😊
