Six

Date

16/06/20

Welcome Comment

Hello Year Six and welcome to Tuesday. Today we will be continuing our Young Enterprise Challenge, and I've also got another great transition task for you, with a little bit of Maths thrown in too! Enjoy!

English/Transition Task

I would like you to complete some independent reading of a book of your choice. This can be online or hard copy. You could try a newspaper or magazine.

Here is today's countdown conundrum. How quickly can you work out the nine-letter word. Don't forget to make as many words as you can as well.

E N S A A V C S S

In September, you will be facing lots of new challenges and experiences at your secondary school. Discuss with someone at home or school about who you could turn to for help or advice. Afterwards, I would like you to create a diagram or pyramid of family, friends or supportive adults you would turn to. Think about specific things you would go to particular people for.

Maths Task

For today's Maths challenge I would like you to try and work out the following:

Adding to make twenty:

1	2	3
4	5	6
7	8	9

Add any four digits to make the total 20

There are 12 possible solutions - can you find the other 11?

Foundation Task

Today I want you to start thinking about your product that you are going to design and make for your Young Enterprise Challenge. I want you to think of an invention that would help achieve something that has become harder to do during the recent corona virus pandemic. You will not be actually selling this product this year, but you will hopefully be able to design and present it. For ideas, you could interview family members and friends to see if they have found certain jobs/chores hard.

For this part of the folder I would like you to create:

- A questionnaire to ask people for their views.
- A completed questionnaire with your interview results.

Any Further Guidance

I hope you enjoy today's learning. If you have any questions, particularly about the Young Enterprise Challenge, remember that I am here, just send them through to the Year Six email. Take care, Mr Salisbury.
