Mrs Cornforth

Class

3

Date

18/6/20

**Welcome Comment**

Morning Year 3 I hope you enjoyed yesterday's challenges and are all ready for today's. Remember to keep active and doing the sports challenge which can be found on the school website.

**English Task**

Using the information, you know about the planets in our solar system we are going to have a go at some space poetry. Start by creating a space riddle about one of the planets! Use similes, the five senses and expanded noun phrases to describe your planet and then see if an adult can guess the answer.

Next try writing a space haiku! To recap they follow this structure

Line 1: 5 syllables

Line 2: 7 syllables

Line 3: 5 syllables

E.g Milky Way Haiku

Hazy band of light,  
Like milk in a cup of tea,  
Far-off galaxy.

**Maths Task**

Yesterday we looked at money and we are going to carry that theme on. I would like you to make a quiz with some money words problems.

E.G. I went to the shop and bought 7 pencils that cost 10p each. How much did I spend?

**Challenge**

You could try writing word problems that involve two steps.

E.G. 3 cakes cost 20p each and I paid with a £1 coin. How much change did I get?

**Foundation Subject Task**

Design your very own spaceship! Draw and label your diagram, thinking carefully about the parts a spaceship would need to survive a journey into outer space!

Engineers often create a mini model of their design. Bring your spacecraft to life using recycled materials. Here are some design ideas.

**Any further guidance**

Miss D and I are looking forward to seeing how creative you can be with your space garden. Keep emailing them to the Year 3 email address. Mrs C 😊
