

Welcome Comment

Good Morning Year 4! I hope you all had a good weekend (despite the weather!) and are ready for another week of learning. It's been BRILLIANT to receive more of your emails so please keep sending them.

Today's active task: This week, there is a new sports challenge – it's agility running! More information can be found on the school website. Have a go at it this morning.

English Task

Grab your copy of 'Riddle of the Runes and answer these VIPERS questions:

E: On page 178, why has the writer used the word 'sweeping' to describe the movement of the torches?

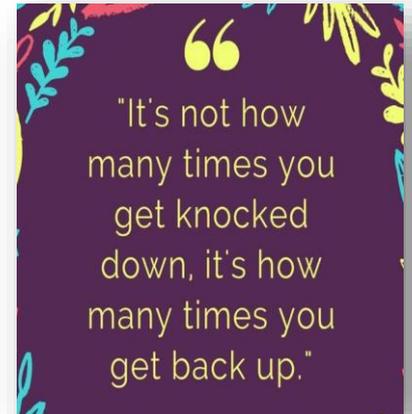

V: What does 'impending morning' mean on p.178?

I: How do you think the 3 characters feel on p.181? Why?

E: On p.182, why has the writer used the word 'slash' to describe the nettle sting? What are they comparing it to? Why have they chosen that word?

I: on p.182, it describes how exhausted Alva is, yet she keeps going. What does this tell us about her character? What qualities does she hold?

Thought for the day...

Maths Task

Today, I would like you to have a go at a new Maths resource. Head over to **prodigygame.com/play**, select 'new student' and enter the class code: **D70201**. You can then add your name and it will generate a password for you. Make sure you keep it safe! There will then be a short test in game form to do so the website can work out what you know and what you need to do more work on. When you have done that, spend some time getting to know the game, creating your avatar and having fun! I'd love to know what you think so please let me know!

Foundation Subject Task

Mrs Fassnidge has set a family Thrive challenge for you today. The challenge combines the outdoors with Art. Your task is to go on a nature **colour** hunt. The world around us is awash with colour. Nature uses colour to make sunsets more breathtaking, flowers more exquisite and wildlife more captivating. Your nature colour hunt can be completed anywhere safe that is outdoors – in the garden, in a park, along a nature trail. Take time to notice the colours around you. Look closely at the different shades of colour – you could try to learn some new colour names. Collect leaves, petals etc and use them to create a nature display. This could be a nature colour wheel, a wall hanging, a sculpture or for more information and inspirational ideas **visit the whole school resources page – 'Thrive and Wellbeing.'** (There are some simple, effective examples for you to try out!) Be creative and enjoy!

Any Further Guidance

I can't wait to see your Thrive family challenge entries! There is another photography competition this week to get involved in, with the chance of winning a **£10 voucher** among other prizes! This week's focus is an illusion. An illusion is something that tricks us into seeing something differently than it actually exists. Photography is often used to make illusions. You can use objects, buildings, toys, mirrors or even the weather. Play with scale, angles, and close ups! There are no limits - use your imagination and have lots of fun! More information can be found in the 'General' section of the website.

Miss D ☺
