

Welcome Comment

Good morning Year Six and welcome to your last ever week at Sutton Park. Because of this, I will attempt to make this week as fun as possible, we have some really important decisions to make too about some end of year awards, details are below. It's so important you cast your vote to the Year Six email – year6@suttonpark.worcs.sch.uk and the awards will be given out at a time when we can all be together in the next school year. Below are today's tasks, so crack on and enjoy!

English Task

As always, I would like you to begin by reading for fifteen minutes with a book of your choice. This is the most important piece of work you can do each day, reading is crucial, so please you continue to do this. Here is today's conundrum. Remember to make as many words as you can as well as to try and work out the nine-letter word of the day!

At the end of every year, Sutton Park awards pupils in Year Six for the following categories: **S N T E E E S P S**

Sutton Park Spark of the Year – This person would be someone who is **always** ready to learn, **always** sets a brilliant example to follow, **always** tries their best and is **always** kind and caring to all. You have one vote which you need to send to the year six email, with a paragraph explaining why.

Sutton Park Sports Girl of the Year – Which girl has impressed you this year with their attitude and performances in school sport. Get your vote and your reason in to the Year Six Email address.

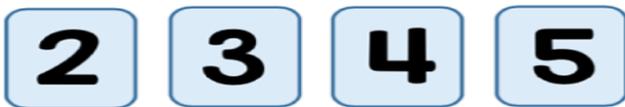

Sutton Park Sports Boy of the Year – Which boy has impressed you this year with their attitude and performances in school sport. Get your vote and your reason in to the Year Six Email address.

Deadline for votes is tomorrow (14/07/20) at 4:00pm. I will then count them up and they will be presented to the winners at a special reunion in the new school year. Further details will follow when we know more.

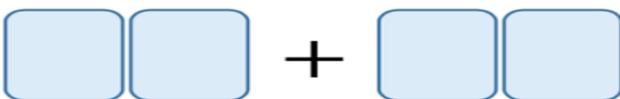

Maths Task

Let's begin with some times tables rock stars today so head to <https://ttrockstars.com/>. Now, have a go at completing the following challenges:

Danni has these four digit cards.

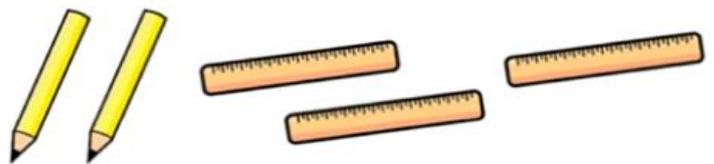

Danni uses all four cards to make two 2-digit numbers. She then adds the two numbers together.

What is the greatest total she can make?

Sonny buys 2 pencils and 3 rulers.

Each pencil costs 69p.

Sonny pays with a £5 note and receives £1.07 change.

How much does a ruler cost?

Foundation Task

Today, Miss D has set you a Family History challenge. She would like you to investigate your own family tree. A family tree is a chart showing family relationships in the shape of a tree. A family tree 'grows' down from the top with the oldest generation at the top e.g. grandparents and then the youngest at the bottom e.g. you! You can display this in any way you wish; this might include photographs, information about people's jobs or where they live. Perhaps you have family members living in other countries who you could include. This should be recorded in your journal so that you can share it with your teacher in September so they can get to know you a little better. Have fun and be as creative as you can!

Any Further Guidance

So, there are your Monday challenges Year Six, I look forward to hearing from you with your class votes. Please get them in to the Year Six email asap and think deeply about your choices. Take care, Mr Salisbury.
