Schoolz Out

ENTRY FORM

It's the summer holidays so we don't want to make this an extra bit of homework – it's supposed to be fun so all we are asking you to do is show your innovation in the form of a picture. This could be hand drawn or designed on a computer – use whatever method you think best shows how your invention will work.

If you need to use some words to explain how it works that's fine – but don't use too many because the maximum number of words which you can use is 300.

Please complete the entry form and send it, with your design to reach us by the deadline of **Monday 31 August 2020**.

In no more than 300 words please tell us more about your innovation *(please use an extra piece of paper if you need more space)*
