

Think it will go
no further?
Think again!

Once you've
hit '**Send**'
where it ends up
will be out of
your hands

Sending a photo of yourself?

'Sexting' may seem like harmless fun but it's **not**.

Make sure you don't send something to another person that you'll later **regret**.

As soon as you send or post a picture you lose **control** of where it ends up.

Remember once a picture is on the internet it can be copied by **anybody**.

Talk to a parent, carer or teacher if you are **concerned**.
